- The official website of the Druhan Family Reunion, a tri-annual festival featuring enthusiasts from all over the globe.
- Tools Used: HTML5, CSS3, Bootstrap, JavaScript, JQuery, GoogleMapsAPI, Gmail,

## **EXPERIENCE**

### **Director of Church Communications | Tech Minister All Saints' Episcopal Church Reisterstown, MD**

**2013 – 2019**

Was part of a newly created Tech Ministry that was responsible for the oversight of branding, web technology and digital communication.

Through the efforts of our team we were able to renew this 150-year-old institution as they embraced the use of digital media, and adapted their entire organization including the worship experience to include its use. Since the adoption of this initiative there has been a measurable increase in weekend and especially newcomer attendance, overall giving, attraction and retention of volunteers and empirical data indicates a unanimous receptivity and enthusiasm for the directive.

### **Owner | Operator Encore Media Pro and JD the DJ Inc. Glyndon, MD**

**2002 – 2016**

At the dawn of the digital age I was able to turn my passion for music and video into the formation of my own business that pioneered the local industry use of all digital media. I employed an interdisciplinary skill-set to deliver impressive audio-visual experiences utilizing the latest technology to produce high-quality, cost-effective multimedia solutions and on-site music and video services.

Both of these companies I formed worked with private, corporate and nonprofit clients to produce video presentations and with a concentration in the wedding industry, I regularly performed at over 40 weddings per year. These businesses were sold in 2016 to concentrate on the initiative at All Saints'.

### **Freelance Web Design – Maintenance - Hosting**

**2002 - 2019**

Website Design, creation, maintenance, and security. Specializing in: email marketing, search engine optimization, email marketing and social media marketing for my own small business and various local non-profits and religious organizations.

## **EDUCATION**

### **The George Washington University College of Professional Studies Coding Boot Camp**

24-week intensive program focused on gaining technical programming skills in HTML5, CSS3, Javascript, JQuery, Bootstrap, Firebase, Node Js, MySQL, MongoDB, Express, Handelbars.js & ReactJS.

### **University of Maryland College Park BS Economics**

Concentration on the full spectrum of issues that impact financial situations and decisions.
